

Anallerg[®] - NFA

INCI: Maltobionic Acid

Product Description

Anallerg[®]-NFA is a new generation polyhydroxy bionic acid that offers anti-aging, skin whitening, anti-glycation, and metabolism-regulating benefits. It's a non-sticky alternative to lactobionic acid, making it ideal for smooth and rejuvenated skin.

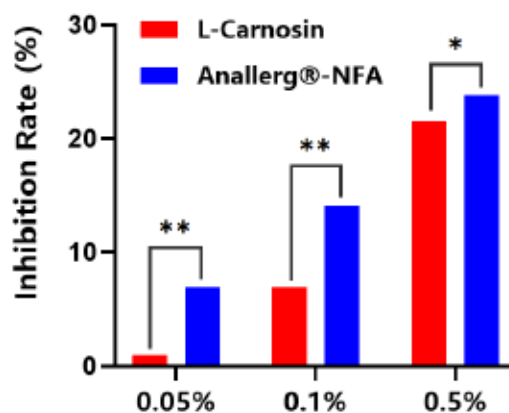

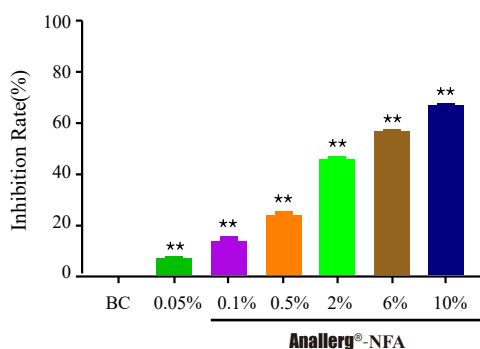

CAS:41092-97-1

Appearance	White to off-white powder
Odor	Characteristic odor
Content (%)	≥95%
